

2025 KCA Karting Challenge Class Structure and Rules

All Classes:

Chassis and Bodywork per CIK. CIK "style" bodywork only, no "full coverage" front or side bodywork. CIK full coverage plastic rear protection system is required. Briggs classes must conform to a traditional sprint setup with no lay-down seats or floor pans past the center chassis bar. All rules are subject to change at promoter's discretion. Unless noted, Kart Circuit Autobahn will be following the Route 66 Sprint Series Rule Book for chassis and engine specifications in Briggs LO206 Classes, KA100 and Mini Classes. But for the Ignite classes the Margay Rule Book will be used.

Tire warmers and tire prep are strictly prohibited. If tires are found to be outside of the durometer window or do not pass the 'sniffer', those tires will be marked illegal and may be cause for driver suspension.

- Competitors found prepping tires and/or tampering with fuel will receive a minimum 1-year ban from competition.
